

To Whom this May Concern,

I am privileged to write in support of my friend and former student, Kendra Corpier. Kendra studied in my classroom and computer laboratory program for close to three years, during which time I witnessed her tremendous growth and development. This development came not only in the area of art direction and leadership, but in maturity and character as well.

Kendra is a talented and dedicated artist. In my classroom, she was always able to pick up new tools and figure out workflows better than most. The digital format really helped Kendra's style break out of the classical style restrictions often found with traditional art mediums. She is a loyal and dedicated worker and I would hire her for any position; she would be a great asset to any project or company.

I recommend Kendra to your Interactive Design and Game Development program with absolute confidence. She has made me proud, as her teacher and friend, and I am sure will continue to do so as she grows in your graduate program and beyond.

Thank you for the opportunity of correspondence,

Sincerely,

Geoff Mellon,  
former Professor, The Art Institute of Phoenix
