**Geoff Mellon**

To whom it may concern,

As her former professor and a game creator with almost 20 years experience and over 15 published AAA titles, I am writing in full support of Kendra Corpier and her desire to teach game industry skills at Cuyahoga Community College. During her time as my student until today, she has been a leader and innovator in game development. She has always gone out of her way to help all in need, it seems only natural that do that in a more professional way as a instructing others.

Her enthusiasm and knowledge for all that is game development cannot be denied upon broaching the subject with her. Her ease of making friends and networking abilities have lead to her becoming the driving force behind the Youngstown Game Dev Group and the yearly Game Jam. Add all that to her knowledge of Unity makes her a perfect candidate for teaching to people wanting to learn how it all works.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'G' followed by a horizontal line and a small loop.
